

Sunburst AgriBiotech Solutions LLC		
Code	Diagnostic Test-Pricing	Pricing/Sample General
Conventional: Culture Plate Methods		
100	Complete Fungal Tissue Diagnosis (1 to 5 samples)	\$125.00
101	Complete Fungal Tissue Diagnosis (5 or more samples)	\$100.00
100A	Pear Test for Phytophthora	\$50.00
	* Please call us for sample volume more than 20 to get a discounted price	
105	Soil/ water Fungus Identification (1 to 5 samples)	\$150.00
106	Soil/water Fungus Identification (5 or more samples)	\$125.00
	* Please call us for sample volume more than 20 to get a discounted price	
	* Please call us for sample volume more than 20 to get a discounted price	
115	Nematode Identification (1 to 10 samples)	\$50.00
116	Nematode Identification (10 or more samples)	\$40.00
	* Please call us for sample volume more than 20 to get a discounted price	
135	Complete Soil Analysis 1 (105, 115) 1-5 samples	\$275.00
140	Complete Soil & Tissue Analysis (100, 105, 115) 1-5 samples	\$325.00
	* Please call us for sample volume more than 20 to get a discounted price	
Molecular Methods (DNA/RNA based)		
305	DNA/RNA based diagnosis one sample for 1 pathogen	\$100.00
307	DNA/RNA based diagnosis (More than 5 samples)	\$90.00
306	Additional pathogen per sample	\$25.00
300	Viroid testing/ Sample (minimum of 5 samples). Please call for pricing for higher sample volume	\$50.00
	* Please call us for sample volume more than 20 to get a discounted price	
Identification for Fungal species, Bacteria by Sequencing		
427	PCR amplification / sample/colony / gel extraction & sequencing	\$175.00
22	Data Analysis and ID by bioinformatics/ report	\$50.00
Please call us for a quote in case of large volume of samples		
Test Reports will be delivered in 14 business days.		
Rush Service: 6-7 Business days* * Cost 20% extra per report
